GEOTILES, S. L. U.  
Carretera Vila-real - Onda Km. 6  
P.O. Box 116 - 12540 Vila-real ( Castellón)  
Tel.: +34 964 522 700

En GEOTILES desde su creación hace más de 20 años, trabajamos día a día bajo la premisa de nuestro sello de calidad e innovación cerámica. Con una fuerte presencia nacional e internacional, tenemos muy en cuenta las últimas tendencias cerámicas y estamos en constante contacto con nuestros clientes para satisfacer todas las necesidades de los diferentes mercados.

Gracias a las últimas tecnologías y un alto sentido del diseño, la marca Geotiles es sinónimo de vanguardia y modernidad.

With a strong national and international presence, we consider the latest ceramic trends and we are in constant contact with our customers to satisfy all needs of the different markets.

Thanks to the latest technologies and high sense of design, Geotiles brand is synonymous with avant-garde and modernity.

En nuestro Catálogo puedes encontrar una selección de colecciones para inspirar con diferentes estilos y acabados: pulidos o satinados, reproducciones fieles de mármoles, cementos, piedras y maderas. Con gran variedad de formatos y versatilidad en los diseños, nuestro producto se adapta a todo tipo de necesidades y proyectos.

In our catalogue you can find a selection of collections to inspire with different styles and finishes: polished or satin, faithful reproductions of marbles, cements, stones and wood.

With a great variety of formats and versatility in designs, our product adapts to all kind of needs and projects.

cerámica

Somos muy conscientes de que el medio ambiente es de un valor incalculable para todos nosotros, lo que explica el respeto que tenemos por el hábitat en el que vivimos. Por esta razón, nuestros procesos y la investigación tecnológica han ido de la mano con una política medioambiental rigurosa que condiciona todo nuestro modo de pensar, trabajar y comportarse hacia el mundo que nos rodea. La etiqueta ecológica es la etiqueta de calidad de la UE que sólo puede aplicarse a los productos con bajo impacto ambiental.

We are well aware that the environment is invaluable for all of us, which explains the respect we have for the habitat in which we live.

For this reason, our processes and research technology have gone hand in hand with a rigorous environmental policy that conditions our entire way of thinking, working and behaving towards the world around us.

The eco-label is the quality label of UE which can only be applied to products with low environmental impact.

Geotiles is committed to social responsibility, that is why we work with 32 foundations and occupational centers dedicated to the socio-labor integration of people with intellectual disabilities.

With the acquisition of this products, this social project that we develop with different non-profit organizations in the Valencian Community contributes to the growth. The objective of this collaboration is the social integration of the disabled people, promoting the values of self-improvement, effort and work that allow them to face new personal challenges and demonstrate their abilities day by day.

Desde Geotiles apostamos por la responsabilidad social, por ello trabajamos con 32 fundaciones y centros ocupacionales dedicados a la integración socio-laboral de personas con discapacidad intelectual.

Con la adquisición de estos productos, se contribuye al crecimiento este proyecto social que desarrollamos con diferentes organizaciones sin ánimo de lucro de la Comunidad Valenciana. El objetivo de esta colaboración es la integración social de los discapacitados, fomentando los valores de superación, esfuerzo y trabajo que les permiten afrontar nuevos retos personales y demostrar sus capacidades día a día.

TECHNICAL  
AREA  
ÁREA TÉCNICA

Adhesion, understood as the strength of the bond between the ceramic piece and the base, plays a vital role in the quality of the tiled surface. Good adhesion should guarantee that the tile is firmly fixed to the base. The development of new low porosity ceramic materials that are resistant to abrasion and sub-zero temperatures, large formats, and their installation in industrial or large commercial areas, facades, etc., has led to a corresponding development in adhesive products.

Increased knowledge about the use of special adhesives means that thick layer installation (mechanical adhesion) is being replaced by thin layer installation (chemical adhesion); the latter offers clear advantages, particularly in relation to quality of both adhesion and durability. The appropriate adhesive must be chosen, taking into account the surface to be tiled and the type of ceramic tile.

It is very important to use the right tools when laying the tiles (notched trowel, white rubber mallet, spirit level and suction cup). The substrate on which the tiles are to be laid must also be free of any plaster, paint residues etc., thus enabling the adhesive to be effective over time.

The adhesive manufacturer's instructions must be followed at all times.

La adherencia, considerada como la fuerza de unión entre la pieza cerámica y el soporte, juega un papel importantísimo en la calidad de la baldosa cerámica. Una buena adherencia debe asegurar una firme sujeción de las piezas al soporte. La evolución de nuevos materiales cerámicos con baja porosidad, resistencia a la abrasión, al hielo, grandes formatos, así como el montaje o instalación de los mismos en industrias, grandes áreas comerciales, fachadas, etc., hacen que se desarrollen productos adhesivos.

El conocimiento adquirido acerca del uso de adhesivos especiales, hacen que el proceso de colocación en capa gruesa (adherencia mecánica) sea sustituido por un sistema de colocación con capa fina (adherencia química) que ofrece claras ventajas, especialmente relacionadas con la calidad de la obra, tanto en lo que se refiere a la adherencia como a la durabilidad. Por lo que se escogerá un adecuado adhesivo en función de la superficie de colocación y el tipo de baldosa cerámica.

Es muy importante que en la colocación de la baldosa cerámica se utilicen las herramientas y útiles adecuados (llana dentada, maza de goma blanca, nivel de burbuja y ventosa). También debemos considerar importante que el soporte o base de colocación debe estar muy limpio de cualquier mancha resto de yeso, pintura etc. de forma que la adherencia podrá realizar sus funciones a lo largo del tiempo.

Deben considerar siempre las indicaciones del fabricante de adhesivos.

RECOMMENDATIONS FOR LAYING RECTANGULAR PIECES / CONSEJOS DE COLOCACIÓN PARA PRODUCTOS RECTANGULARES

The adhesive manufacturer's instructions must be followed at all times. Deben considerar siempre las indicaciones del fabricante de adhesivos.

	
<p>Broken joint pattern (from 2 to 20cm)</p> <p>Colocación Trabada (entre 2-20 cm)</p>	<p>Standard straight pattern (NOT RECOMMENDED)</p> <p>Colocación Regular a media pieza (NO ACONSEJABLE)</p>

This manual is designed to improve the quality and maintenance of the installed ceramic tile by offering recommendations from professionals in the sector.

The user may follow all the recommendations given in the manual, or those relevant to the task in hand.

Both recommendations to follow and practices to be avoided are given.

Over the years, Geotiles has achieved sustainable growth in the competitive ceramic tile market. Our presence is now firmly established in the most important distribution channels across the globe, affirming the hallmarks of Geotiles' identity: quality, design and innovation.

Fomentar la calidad del producto ya instalado y su mantenimiento es el motivo por el cuál ponemos a su disposición este manual con recomendaciones elaboradas por profesionales.

En consecuencia, usted puede considerarlas en todo o en parte, teniendo en cuenta no sólo lo que éste le recomienda, sino también lo que debe evitarse.

Geotiles ha logrado crecer sosteniblemente a través de los años en el competitivo mercado de la baldosa cerámica. Contando con una presencia estable en los principales canales de distribución de todo el mundo, con lo que calidad, diseño e innovación son las principales señas de identidad de Geotiles.
