container. Never reuse spilled product.

HANDLING AND STORAGE

Handling: carefully follow the instructions on the product packaging.

Avoid any kind of use not foreseen by the instructions.

Avoid mixing with other products or similar products or with different substances not provided for in the specific instructions.

Never return the spilled product to the original containers for a new use.

Once the package has been opened, use the product within the period shown on the label.

Keep the products out of the reach of children. Close the container tightly after use.

Store in a dry and well-ventilated place away from flames, heat sources or electrical appliances in operation. Do not smoke during use.

EXPOSURE CONTROLS / PERSONAL PROTECTION

The work environment must be adequately ventilated, possibly with mechanical air exchange (Art. 224 and Annex IV to Legislative Decree 81/08).

The points where emissions of vapors, gases or dusts, or spills of substances may occur, must be set up in distinct areas, equipped with localized extraction systems or collection systems (Annex IV to Legislative Decree 81/08).

In the event that the Employer identifies risks that cannot be avoided by other means, he is required to make available to workers adequate Personal Protective Equipment (PPE) (Art. 75 and 225 of Legislative Decree 81/08), in compliance with the envisaged standards.

The use of PPE provided by the Employer is mandatory (Art. 20 and 78 of Legislative Decree 81/08).

PHYSICAL AND CHEMICAL PROPERTIES

Appearance	viscous liquid
Colour	pink
Odour	floral scented note
pH	6
Relative density	1,020 kg/l
Solubility	fully miscible in water

STABILITY AND REACTIVITY

Stable product at room temperature.

TOXICOLOGICAL INFORMATION

Irritating to eyes (in case of contact). If ingested it can cause irritation to the gastrointestinal system.

The information contained in this sheet is based on the knowledge available to us at the date of the latest version.

This Information Sheet is an information tool on hygiene and safety, drawn up to help employers comply with the obligations of Legislative Decree 81/08. In fact, the professional user is protected by Legislative Decree 81/08 and subsequent amendments and additions, which requires the employer to carry out an assessment of the risks for the safety and health of workers (Article 28 of Legislative Decree 81 / 08). The aforementioned decree defines (Title IX, art.222) as dangerous chemical agents, not only the substances and mixtures that correspond to the classification criteria of the relevant standards, but also those agents that may pose a risk to the safety and health of workers due to their physico-chemical, chemical or toxicological properties and the way they are used or present in the workplace, including chemicals that have been assigned an exposure limit value

This Sheet is not to be considered a Safety Data Sheet as:

- finished cosmetic products are excluded from Regulation (EC) 1907/2006 (REACH) as regards the obligation relating to safety data sheets (Articles 31 and 32);
- finished cosmetic products are totally excluded from the field of application of Regulation 1272/2008 (CLP), as previously provided for by Directive 1999/45 / EC on dangerous preparations, and as such are excluded from the obligation of classification and labeling of danger and the provisions relating to safety data sheets
