

ZEROCAL⁺ DOSE

Refill for dosing units

Description

Lo Zerocal⁺ Dose is a liquid that can be used in water systems, with an anti scale and anti corrosion action for sanitary drinking water and for general use. Product prevents the formation of scale deposits up to a temperature of 65 ° C and 70 ° C on copper pipes. It has an anti corrosion action by forming a protective film that prevents direct contact between water and pipe metal.

NOTE: any discoloration of the product does not affect quality and effectiveness.

BENEFITS

- Product suitable for food use
- Anti scale and anti corrosion action
- Easy to use
- Ready to use

Use and dosage

Zerocal⁺ Dose is used in the anti scale dosing units of "ZEROCAL⁺" line. Pour the entire contents of Zerocal Dose bottle into the tank of the dosing unit.

Storage

Store product in a dry place protected from frost. Respect the requirements for the storage of food.
