

San Maurizio d'Opaglio, 28/09/2017

Dear Sirs,

The purpose of this letter is to introduce our company as a European leading manufacturer in the production of brassware, such as ball valves, gate valves, radiator valves, heating equipment, brass fittings, manifolds, but also of plastic pipes, sanitary distribution systems, underfloor and ceiling systems (heating/cooling).

Giacomini S.p.A. was founded in 1951 and all the Company's product and manufacturing processes are certified and approved in accordance with ISO 9001, ISO 14001 and ISO 18001.

The quality of our products has been listed in conformity with the most important international Standard Institutes: UL, FM, AGA as American standard, BS and British gas as English Standard, DIN DVGW as German standard, and many others.

The total number of Giacomini employees is about 900 people, and, today, we are one of the biggest consumer of brass in Europe. Six thousand different items are manufactured in our facilities in Italy, and the 80% of the total production is exported all over the world.

Our products are guaranteed in accordance with European Norm 2001/95CE.

With reference to the Romanian territory, we would like to confirm that the Company cited here below is our partner, is dealing directly with us without passing through agents or third parts, and can be therefore considered as an authorized and official distributor:

ROMSTAL IMEX SRL
Sos. Vitan Barzesti 11A, sector 4,
Bucharest
Tel.: 021.3320901
e-mail: office@romstal.ro

Therefore you can rely upon him, even for all of the aftersales services you are needing.

Validity of the present letter: till 31st December 2018.

After the above indicated date, both the parts will meet in order to discuss the details of the cooperation for the next year.

Best regards
Nicolò Sortino
