

To whom it may concern

Subject: Declaration of conformity model Bolly PDC

The calorifier is manufactured by Cordivari in accordance with the EU directive 2014/68. For article 4.3. of the same directive, the tank must not be CE marked.

In compliance with Directive 2014/68 EU (PED) as well as regulations No. 812/2013 and No. 814/2013 issued by directive 2009/125 / EC (ErP - requirements for the eco-design of energy-related appliances) and the directive 2010/30 / EC (energy labeling of the same), the technical data and heat loss together with the energy classes are shown on the labels / technical sheets attached to the product. These labels / data sheets are to be considered an integral part of the instructions for use.

The calorifiers are built in S235 JR UNI EN 10025 carbon steel, and are equipped with one plate heat exchanger suitable for operating with hot water at a pressure of 10 BAR and a maximum temperature of 110 ° C. The tank can be integrated with one or two fixed coil heat exchangers suitable for operating with hot water at a pressure of 12 BAR and a maximum temperature of 110 ° C.

All the containers, before the finishing treatment (Polywarm), are subjected to a hydraulic test equal to 1.3 times the maximum operating pressure of 10 BAR and are suitable for operating at a maximum temperature of 90 ° C.

For all other technical data it is recommended to consult the Cordivari S.r.l. catalog.

esercizio di 10 BAR ed è idoneo a funzionare alla temperatura massima di 90 °C.

A stylized signature in black ink is written over the text "CORDIVARI S.r.l." which is printed in a bold, sans-serif font.
