

PMA - PTA PRESSURE SWITCHES FOR AIR COMPRESSORS PMA/12 - PTA/12; PMA/12RP - PTA/12RP

- Pressure switches for use with air compressors
- The switch ensures automatically starting and stopping of the compressor according to the preset pressure values
- Electrical contacts: normally closed, made of brass alloy with Ag-Ni surfacing
- Terminals with M4 screws and 8x8 mm pressure dice
- Oil-resistant NBR rubber membrane with textile insert
- 1/4" F galvanised steel hydraulic connection
- Standard protection degree IP 44
- Max ambient temperature 55 ℃
- Tear resistant cable clamps
- Cover with on/off button
- Air-relief valve for 6 mm diameter pipe with delayed closing system for model PMA single phase, and with instant-closing action for model PTA three phase
