

A range of Visual Indication Devices (VIDs) suitable for use on fire, security and other building control systems.

Used as an ancillary visual alarm in fire systems; Identifire VIDs are suitable for conventional and 2-wire fire systems as well for general alarm and signalling systems.

As with the wider Identifire range, the product is designed to fit any recessed single gang box, giving a flush finish or surface mounted using the Identifire surface box. Body colours available are Red and White.

Strobe colours available are Red, White, Amber, Blue and Green.

In common with all other Identifire products, our Visual Indicating Devices can be customised with your choice of logo and text in any language.
