

211

(10 Pack) 400/500/700/2000 Replacement Chamber

General

The 211 is a replacement optical chamber for Aritech 400, 500, 700 and 2000 series detectors. Easy replacement is supported by a detector design that allows a contaminated (dirty) chamber to be removed and replaced by a clean chamber without the need for special tools. As simple click-out, click-in mechanism makes replacement possible in a couple of seconds. The detector automatically re-calibrates the detection sensitivity on first start up.

Standard Features

- Allows for easy field maintenance & cleaning of optical devices
- Easy to remove and replace
- Low cost alternative to detector replacement

211

(10 Pack) 400/500/700/2000 Replacement Chamber

Specifications

Detection	
Detection principle	Optical
Sensitivity	Automatic calibration
Coverage area	< 80 m ²
Field of view	360°
General	
Compatibility	Aritech 400, 500, 700 and 2000 series residential and commercial smoke sensors, optical detectors & multi-sensors
Physical	
Colour	Black
Mounting type	PCB Mount
Material	Plastic
Environmental	
Vandal proof	No
Environment	Indoor
Standards & regulation	
Compliance	CE, REACH, RoHS 2
