

# 9-10921

## Discrete sampling point assembly - complete

### Description

---

The 9-10921 is a discrete capillary sampling point. It is supplied complete with a 27mm diameter t-union, to which the flexible sample pipe connects. The flexible sampling pipe has a diameter of 10mm and is 1m long. At the end of the flexible sampling pipe, the discrete sampling point is connected. This sampling point assembly allow for almost invisible installation, when for example the capillary tube is intertwined with the chain of a chandelier resulting in sampling lower than the ceiling.

# 9-10921

## Discrete sampling point assembly - complete

### Technical specifications

---

Sampling pipe	
Length	1 m

Physical	
Physical dimensions	10 mm (Outer capillary pipe diameter) 27 mm (Inner T-Union diameter)
Colour	Natural / clear
Mounting type	Insert

Environmental	
Environment	Indoor
